

LEEYAZ MOHAMED K

Azure AI Apps Developer | AI Full-Stack Engineer

Dubai, UAE | +91-8778156877 | leeyazm@gmail.com | linkedin.com/in/leeyazmohamed

PROFESSIONAL SUMMARY

AI-native Full-Stack Developer with 1.5+ years building LLM-powered applications, RAG pipelines, and agentic workflows using Python, FastAPI, and Django. Hands-on experience with Azure AI Search, Azure Speech services, LangChain, LangGraph, and vector/graph databases (ChromaDB, Pinecone, Neo4j) to deliver production-grade copilots, semantic search systems, and intelligent APIs. Skilled in AI-native development tools including GitHub Copilot, Cursor-style agentic editors, and Claude for rapid prototyping and shipping. Experienced with Docker, Kubernetes, Terraform, and CI/CD for scalable cloud deployment, with a strong focus on responsible, well-grounded, low-latency AI systems.

TECHNICAL SKILLS

Azure & Cloud AI	Azure OpenAI Service, Azure AI Search, Azure AI Studio, Azure Speech-to-Text/Text-to-Speech, Azure Container Apps, Vertex AI Vector Search
AI-Native Tooling	GitHub Copilot (Chat), Claude, Cursor-style agentic editors, OpenAI GPT-4, Grok, Prompt Engineering & Evaluation
Generative AI & LLMs	LangChain, LangGraph, LlamaIndex, Hugging Face Transformers, Haystack, Ollama, RAG, Agentic Workflows
Languages & Frameworks	Python, TypeScript-ready, Django, FastAPI, Flask-compatible, HTML, CSS, Bootstrap, JavaScript
Vector & Graph Data	ChromaDB, Pinecone, Neo4j Knowledge Graph, MongoDB, MySQL, MariaDB, SQL Server
Infrastructure as Code	Docker, Kubernetes, Red Hat OpenShift, Terraform, Apache Airflow, CI/CD, Cloud Build, Azure Developer CLI
Speech & Multimodal AI	Whisper, TorToiSe TTS, Coqui TTS, Voice Cloning, Stable Diffusion XL, ControlNet, CLIP-ViT
Zoho Platform	Zoho One, Zoho CRM, Zoho Creator, Zoho Books, Zoho Inventory, Zoho Commerce, Deluge Scripting
Tools & Platforms	Visual Studio Code, PyCharm, GitHub, Figma, Canva

WORK EXPERIENCE

AI Full-Stack Engineer | IMACH.AI

July 2025 - July 2026

- Designed a hybrid-retrieval chatbot combining Azure AI Search (vector), Neo4j knowledge graph, and MongoDB metadata lookups, integrated with LangGraph and LangFuse for stateful, observable agentic workflows — improved answer accuracy by 35% over standard RAG.
- Built and deployed LLM-powered backend services with FastAPI, applying structured prompt engineering and evaluation practices to reduce hallucinations and improve grounding across production copilots.
- Engineered a hybrid rejection pipeline combining rule-based filters, semantic similarity search (Sentence Transformers + ChromaDB), and GPU-accelerated inference (TensorRT-LLM + vLLM), reducing false positives by 42% at under 800ms latency.
- Optimized LLM inference via structured pruning, dynamic batching, FlashAttention-2, PagedAttention, and AWQ quantization, cutting per-token cost by 45-50% and improving GPU throughput ~3x.
- Maintained reproducibility pipelines (DVC + MLflow) and model cards, collaborating with a 3-person AI team to ship well-documented models to production following responsible AI practices.
- Delivered a real-time speech-to-speech voice assistant (Whisper, TorToiSe, CoquiTTS) with sub-800ms latency, enabling voice-driven semantic search experiences.

Software Developer | Altos Technologies

Dec 2024 - June 2025

- Developed and maintained dynamic, database-driven web applications end-to-end using Python and Django, building clean, maintainable, production-ready services and REST APIs.
- Designed and optimized database models and queries (MySQL/MariaDB), integrated payment gateways and checkout workflows, and built custom admin panels for e-commerce platforms.
- Implemented secure authentication, responsive front-end interfaces (HTML, CSS, Bootstrap, JavaScript), and cross-browser/mobile-compatible UI.
- Collaborated with cross-functional teams in an agile environment to analyze requirements, plan sprints, and deliver modules on schedule.

Software Developer | Horeca Host (Dubai — Remote, Freelance)

May 2024 - Nov 2024

- Built and customized business applications on the Zoho One platform, including Zoho CRM, Zoho Creator, and Zoho Books, to automate day-to-day operations for a Dubai-based hospitality client.
- Wrote Deluge scripts for custom functions, workflow automation, and third-party API integrations across Zoho CRM and Zoho Creator modules.
- Configured Zoho CRM modules, layouts, blueprints, and automation rules to streamline lead management and sales workflows, and built low-code operational apps in Zoho Creator to digitize manual processes.

KEY PROJECTS

KTCC Finance Management System | IMACH.AI

Project: <https://finance.ktccgulf.in/login>

- Developed a web-based finance management system for handling financial operations and records.
- Contributed to backend development, database integration, and user authentication.

VendData — Vending Machine Monitoring System | IMACH.AI

Project: <https://venddata.viennavending.com>

- Developed a web-based vending machine monitoring system for tracking machine failures and operational data.
- Contributed to backend development and data management.

Next-Gen Inventory Management with RAG | IMACH.AI

- Deployed a RAG chatbot over 100K+ inventory, supplier, and procurement records using OpenAI GPT-4, LangChain, Pinecone, FastAPI, and Docker, reducing supply chain team search time by 60%.
- Used Apache Spark for distributed data processing and grounded responses with source citations to minimize hallucinations.

Posed.io — AI-Powered E-commerce Imaging Platform | IMACH.AI

- Led an AI imaging system processing 10M+ images/day using Stable Diffusion + CLIP; cut manual post-production work by 70% and reduced cloud costs by 60% via ONNX/TFLite quantization at sub-8ms latency on T4 GPUs.

EDUCATION

Bachelor of Computer Application (BCA) <i>The American College, Madurai — GPA: 6.5</i>	2021 - 2024
Higher Secondary Course (+2) <i>Mary Ann Matric Hr Sec School, Madurai — 79.00%</i>	2020 - 2021

CERTIFICATIONS & COURSES

- Full Stack Certificate
- Responsive Web Development — Workshop Certificate
- Certificate in Excel — Coursera
- UI/UX Beginners Certificate
- Novi Tech Web Bootcamp Certificate

LANGUAGES & AVAILABILITY

Tamil — Fluent | English — Fluent | Availability: Immediate
